It is the intention of Lieutenant Governor Mackintosh to reach Edmonton on Monday, Feb. 23th. He will remain at Edmonton during the 26th. On the 27th he goes to Fort Saskatchewan, and on the 28th to St. Albert. On Friday, March 1st, he returns south to Regina.  
"Gunner Jingo's Jubilee," an autobiography of General Strange, commander of the Alberta field force in the rebellion of 1885, has been handed to the BULLETIN for notice by T. W. Chalmers, D. L. S. An autobiography is generally uninteresting because the fortune to take part in striking events is not always accompanied by the ability to describe those events in an interesting way. This is not the case with General Strange's book. It tells the story of an active participation in many of the warlike adventures of the empire in recent years, from the Indian mutiny to the Northwest rebellion, in the quelling of which General Strange had a very prominent part. The story of a soldier and a general should be interesting and in this case it is interesting and valuable both for the events recorded, the views expressed and the entertaining style in which it is written. The book is well printed, illustrated and bound and should have a place in the library of every man in Canada who wishes to have an authoritative statement regard that critical period in the history of the Northwest, the rebellion of 1885. It is published by Remington & Co., London, England.

REV. FATHER LACOMBE leaves to-morrow for St. Boniface, Ottawa and Montreal on a special mission regarding the consecration of the new Archbishop of St. Boniface. The old friend of the C. P. R. intends to bring as many bishops as possible from the east to take part in the great ceremony for the installation of the Most Reverend A. Langevin to the See of St. Boniface. He wishes this the missionary has in contemplation a plan by which, with the assistance of the government, to provide for the poorer half breed families, of whom a great many are scattered all over the Northwest without anything to live on, many of them more miserable than the Indians. Their friend Father Lacombe is making a supreme effort to rescue these people who once were the happy owners of this country. The father hopes that on his representations the government will understand the position. It appears that there are between 2,000 or 4,000 half breeds in Manitoba and a great many more in the Northwest who are almost destitute. He hopes that the government will give them a place where they may gather under the care and guidance of their spiritual advisers and make a living away from the white settlements.—Communicated.

No skating to-night as the rink is being flooded.

LARGE quantities of ice are being cut for next season's use.

ALEX. MACDONALD has opened a coal mine about three miles down the river, the coal from which is considerably harder than that mined in town. A large piece is now on view in front of Turnbull & McAdam's auction rooms.

It is proposed to locate the Little Mountain cemetery on the west half of section 35, township 54, range 24, the highest point of the Little Mountain. Belmont, Horse Hill and Poplar lake settlers are taking part in the scheme. The proposed area is 30 acres.

REVEREND Father Vegreville of St. Albert, is going east to-morrow with Father Lacombe. The rev. gentleman who has lived for 50 years in this country is on his way to Washington, where he has received propositions to have his manuscript on Indian languages printed by the Smithsonian institute. Father Vegreville is a linguist. During his long missionary life in this country he has learned thoroughly the Cree, the Montagnais and Assiniboin, (Stony) languages. He has a number of manuscripts on these different dialects.

## FREIGHT RATES ENQUIRY.

A marked discrimination against Edmonton is in the more favorable rates given to MacLeod and Lethbridge from Winnipeg, both terminal points on branch lines and in the prairie section.

	Miles	1st	2nd	3rd	4th	5th
Edmonton	1032	2.45	2.05	1.65	1.22	1.11
MacLeod	945	1.93	1.66	1.34	1.03	.93
Lethbridge	777	1.46	1.40	1.13	.86	.77

These figures show that in comparison with MacLeod and allowing for the extra mileage to Edmonton, this place pays 18-1-5c per class more than MacLeod and 14-4-5c more than Lethbridge, being about 12 per cent and 9 per cent more respectively. On the principle that the longer haul is entitled to the less rate per mile, Edmonton is entitled to a less rate per mile than MacLeod and Lethbridge, but pays a greater rate per mile. Comparing the MacLeod and Lethbridge rates with those given Calgary, we find that the former place have virtually a main line rate.

### RATES WEST.

We wish it to be continually borne in mind that our market in British Columbia is by far of most importance to us and that we are interested in import rates from as well as export rates to the west. Victoria and Vancouver are manufacturing centres as well as entrepôts for sea borne freight. Consequently to have reciprocity in interchange of goods it is essential that the import rates should be proportionately as low as those from eastern centres of distribution. We find that Edmonton, distant from Vancouver, 834 miles, is charged the same rate as Balgonie, a distance of 1141 miles, on 1st and 2nd class freight and on the remaining classes very little less.

	Miles	1st	2nd	3rd	4th	5th
Vancouver to Edmonton	834	2.92	2.44	1.45	1.95	1.31
Winnipeg to Edmonton	1032	2.45	2.05	1.65	1.32	1.11

A charge of 18 per cent more on the total schedule for carrying freight a distance of 198 miles less.

A rate from Vancouver to Edmonton proportionate to that granted Winnipeg to Edmonton would be \$1.98 on 1st class, \$1.65 on 2nd, \$1.33 on 3rd, .98 on 4th and .89 on 5th. A difference of 50 per cent as against trade from Vancouver as compared with trade from Winnipeg.

Edmonton is clearly entitled to the benefit of its western position in being 648 miles nearer Vancouver than is Winnipeg inasmuch as in importing from the east, the fact of its being 1032 miles further west than Winnipeg has not been forgotten in fixing the rates.

Referring to special produce tariff, Winnipeg to points west, the rate from Winnipeg to Vancouver, a distance of 1432 miles, is 55c on grain, etc., while the rate from Edmonton by tariff No. 254 is 35c. Were we given a rate proportionate to our distance from Vancouver 834 miles, our rate would be less than 31c. This shows a discrimination against us of 4c per 100 lbs. or 1-1-5c per bushel on Edmonton oats, as compared with Winnipeg. Moreover in remarks under C. P. R. No. 236 we show that 31c would still be too high a comparative rate. Our present rate from Edmonton to Ashcroft, B. C. 629 miles, is 56c which is one cent higher than the rate from Winnipeg to Vancouver, a distance of 1,482 miles. Ashcroft and other interior points in British Columbia would afford us an excellent market for our produce were freight rates proportionate to the distance.

The distance from Edmonton to Port Arthur is 1464 miles and the rate to that point is 33c per 100 lbs. Our old rate to coast was 50c (834 miles) which has since been reduced to 35c. As British Columbia and the coast is our market and not a car load of our produce goes as far east as Port Arthur we might reasonably expect the C. P. R. to give us as favorable a rate to our market as they do to other points. Did they do so our rate to Vancouver, allowing the computed distance of 1167 miles, would be 26c instead of 35c. We have requested a rate of 28c which is the rate given to Tilley, Cassels, Latham, Crowfoot and Gleichen, an average distance of 1181 miles from Port Arthur. We are credibly informed that Winnipeg gets a special reduction on the grain tariff of 4c per 100 lbs. on coarse grain, such as oats, shipped to Port Arthur. As coarse grain is all we at present export we are as fully entitled to such a reduction as Winnipeg. This if given would lower

our rate to Vancouver to 22c per 100 lbs. 50 per cent less than we now have.

LUMBER FROM VANCOUVER.

	Miles.	Rate.	Proportionate rate to Edmonton
Vancouver to Edmonton	834	.47	
Calgary	662	.35	.44
P. Albert	1375	.65	.39
Regina	1125	.47	.35
Winnipeg	1474	.50	.23
MacLeod	767	.41	.45
Lethbridge	939	.47	.42
Whitewater	1667	.50	.25
Melita	1666	.50	.25
Elkhorn	1285	.50	.33

This discrimination is all the more injurious to Edmonton on account of the desirability of interchanging products with its best market at Vancouver.

Although we think we have proved in our remarks on other tariffs not only that the extra expense of operating the mountain section does not add to the rates given other places to points in British Columbia, but that they are especially favored in comparison with the rates given to Edmonton in the same tariffs, yet we will in the comparisons we are about to make between the tariffs to the west and to the east, allow for the difficulty and expense, .58 per mile on the actual mileage west, being a very close approximation of what the computed mileage would be, and as the rates quoted to the east are common to Winnipeg and Port Arthur we will only reckon the distance to Winnipeg. By making these allowances, first of all of computed mileage and next of 424 miles between Winnipeg and Port Arthur we think we are giving the C. P. R. very liberal treatment in the following comparisons. Notwithstanding this the differences show a discrimination against Edmonton of 79 per cent on grain and 64½ per cent on cattle as compared with points whose markets are in the east.

From Edmonton to	Computed miles.	Grain.	Hay.
Donald	442	.37½	.31½
Revelstoke	569	.44	.39
Sicamous	638	.51	.47
Larkin	698	.51	.47
Kamloops	773	.51	.47
Ashcroft	843	.56	.53
To Winnipeg from	Miles.	Grain and hay.	
Secretan	443	.25	
Sidewood	565	.26	
Irvine	638	.27	
Langevin	695	.27	
Cluny	776	.29	
Calgary	840	.29	

In arguing against our plea for reduced rates to interior points in British Columbia the C. P. R. stated that we had not to encounter foreign competition as exists at the coast. Unless we are very much mistaken Revelstoke on the C. P. R. is a competing point with Fort Sheppard on the United States boundary for the supply of agricultural produce required in the Kootenay mining district and we therefore should have comparatively as low a rate to Revelstoke as to Vancouver where United States products again compete with ours.

### LOCAL RATES.

Calgary occupies towards Edmonton (being one of its principal markets) the same position as Winnipeg occupies towards Elkhorn, Whitewater or Melita, stations on the main line, Pembina branch and South Western and Souris branch, situated the same distance from Winnipeg as Edmonton is from Calgary. The C. & E. railway makes a larger profit on its local business than any other line in Manitoba for the North west, and besides gets a subsidy of \$80,000 a year for carrying mails. Coal is cheap, the road is easily kept in repair and snow falls never interfere with its operations. There is consequently every reason to suppose that freight could be carried on this branch at lesser rates than the same service can be performed on such branch lines as the Pembina and South Western and Souris. Notwithstanding this the freight from Edmonton to Calgary pays a large percentage more than the above mentioned points pay to Winnipeg. The rate on eighth class freight is especially detrimental to our trade as grain and agricultural products marketable in Calgary are placed in this class. When we consider that the rates in Manitoba are so much complained of and that we are treated so much worse than they, our cause of complaint is much stronger.

	Miles	1st	2nd	4th	6th	8th
Edmonton to Calgary	192	1.00	.84	.50	.38	.24
Elkhorn to Winnipeg						
Main line,	197					
Whitewater to Winnipeg, Pembina Branch	193					
Melita to Winnipeg, South Western and Souris Branch	192	.83	.70	.43	.30	.18½
Difference against Edmonton		.17	.14	.07	.08	.05½
	Miles	1st	2nd	3rd	4th	5th
Mallorytown to Toronto	195	.40	.35	.30	.25	.20
Elkhorn to Winnipeg	197	.83	.70	.57	.45	.38
Edmonton to Calgary	192	1.00	.84	.68	.50	.45

This table shows that compared with a similar haul to Winnipeg the rate from Edmonton to Calgary is 20 per cent. too much; that the Winnipeg rate compared with a similar haul in the east is 94 per cent. too much and that our rate to Calgary compared with a similar eastern haul is 131 per cent. too much.

### POSTS AND RAILS TO CALGARY.

The rate on posts and rails to Calgary is 14c per 100 lbs. From the comparative statement furnished by the Northwest government we find that green cordwood weighing 5,000 lbs. to the cord is carried 200 miles on the C. P. R. western division at \$2.80 per cord, or .05½ per hundred pounds. The rate to Calgary is thus over 250 per cent higher on this product of the Edmonton region, for which an extensive market exists in the Calgary district, than the rate on practically a similar product on other parts of the western division. Of course the rate is absolutely prohibitory.

### COAL TO CALGARY.

Edmonton coal competes at Calgary with coal from Lethbridge, Anthracite and Canmore. In August last Lethbridge coal was given a reduction from \$3.40 to \$3.00 on the rate to Calgary and a like reduction to other points, the average being .167 on the dollar. If Edmonton were given a proportionate reduction on the old rate of \$2.40 it would give a rate of \$2.00 which we claim instead of \$2.25 which we are now paying. From Anthracite, Canmore and Lethbridge to Moose Jaw, Regina, Prince Albert and Winnipeg coal is hauled at from 2-3 to 7-10 of a cent per ton per mile. Therefore the rate of \$2.00 per ton for the 192 miles from Edmonton to Calgary which we have repeatedly requested of the C. P. R. is a higher rate than we should justly pay on an article which owing to its abundance, easy mining and highly appreciated qualities for domestic use would become a leading export were a fair rate given us.

TABLE OF PASSENGER AND EXPRESS RATES.		Passenger rates	Express rates.
Montreal to Halifax	848	\$14.00	
Montreal to P. Arthur	993	26.75	
P. Arthur to Winnipeg	424	13.05	\$3.50
Winnipeg to Calgary	840	34.10	5.75
Winnipeg to Edmonton	1032	43.70	8.25
Calgary to Edmonton	192	9.60	2.50
Winnipeg to Whitewater	192	7.60	2.00
Winnipeg to Elkhorn	192	6.60	2.00
Winnipeg to Melita	192	6.67	2.00
St. Paul to Moose Jaw	717		3.50
Winnipeg to Donald	1023		7.50
Winnipeg to Montreal	1423	41.90	5.75
Winnipeg to Prince Albert	604		5.75

The same increase from east to west as is noticed in our comparison of freight rates applies with almost equal force to the rates for passengers and express. From Halifax to Montreal the passenger's rate is \$14 for a distance of 848 miles a rate of .0165 per mile. From Winnipeg to Calgary for a similar distance the rate is .0405, a difference of .0240 or nearly 2½c per mile. The rate from Calgary to Edmonton is 5c per mile, a difference of nearly 3½c on the rate from Montreal to Halifax and we pay also rather more than 1½c per mile over the rate from Melita to Winnipeg. Going east from Winnipeg to Montreal we find a difference of over 2c a mile as against the Edmonton rate from Calgary. This high rate retards trade and the settlement of the country, and in addition to the high rate the passenger accommodation is of the poorest description. The passenger cars would not be tolerated on any eastern line. The service of only two trains per week prevents many who would otherwise visit Northern Alberta from coming in and seeing the resources of the country and its natural advantages. At present a visitor arrives late at night and must go out again early next morning or stay for three days; a length of time which is out of the question with the average traveller.

In comparing express rates we notice a discrimination against our rate from Calgary of 25 per cent. as compared with the rate from Winnipeg to Elkhorn, Whitewater and Melita. Comparing our rate from Winnipeg with that given Donald for a similar distance we find a difference of 75c or 10 per cent. against us. Comparing our rate from Winnipeg of \$2.25, 1032 miles, with given from St. Paul to Moose Jaw on the Soo line, \$3.50 for 717 miles, we find a difference of 63 per cent. Had we a proportionate rate we would pay \$5.05, \$3.20 less than we are taxed at present. Comparing our rate from Winnipeg with the rate from Montreal to Winnipeg we find a difference of 98 per cent. against us. Our express business, owing to the delay in

getting merchandise shipped by freight is very heavy and far exceeds that of Donald or Melita. Cars of freight for Edmonton have been known to be detained at Calgary for three weeks owing to stress of business on the C. & E. line.

### MAIL SERVICE.

Trains runs each way twice a week between Edmonton and Calgary. They arrive at Edmonton when on time at 7 p. m. and leave the following morning at 8 o'clock. They are frequently behind time, owing to delays on the main line with which they make connection. After the mail is distributed a business man requires to sit up all night to answer his correspondence by return mail, or wait three days for the next train. The remedy for this condition of affairs as well as delayed freight would be a more frequent train service.

# BEAUMONT.

At a public meeting held in Beaumont school house on Wednesday evening last it was decided that it was advisable to grant \$200 of Northwest government funds in aid to the Poplar lake creamery, and to forego the expenditure of that amount on the roads of the district.

The Little Mountain cemetery company is being organized to provide a cemetery for the settlement surrounding the Little Mountain.

A letter from the council of public instruction, Regina, says that the present Beaumont school district is to be divided into two districts, an eastern and a western. This decision is the result of representations made to the council of public instruction by petition and resolution.

## POPULAR LAKE.

A public meeting was held in the school house on the evening of Friday the 8th inst., regarding a house being granted to the creamery erected in this vicinity last spring. Mr. W. B. Briggs was called upon to preside and Jas. McElmuid acted as secretary.

Moved by John Kennedy—A. Hutchings that D. Maloney, M. L. A., in conjunction with F. Oliver, M. L. A., use their best endeavors to obtain a special grant to creameries in Northern Alberta.

Moved by Wm. Latimer—A. Hutchings that \$500 of the executive grant of the Northwest Territories to this district, be appropriated to the creamery company, in lieu of the share of such grant to which this section of the district is entitled for roads and bridges during the last two years, and that the same be recommended by D. Maloney, M. L. A. for immediate payment to the said company. Carried unanimously. A vote of thanks was tendered Mr. Briggs for presiding.

9th Feb., 1905.

## LACOMBE LINKS.

Sunday and Monday last were the stormiest days we have had this winter, and a lot of snow has fallen so far, although the early winter was so fine. According to the saying of the old settlers "the more snow the better the crop," we may look for good crop next season.

The young conservative association meets again on Saturday evening, Jan. 9th, and the young liberals Jan. 16th.

Going to the bad weather on Friday night last, there were not enough Royal Templars turned out to form a quorum, but we look for a large attendance this week, and expect a good debate.

It is rumored we are to have another hotel in our town this spring, but there does not seem to be anything definite as yet.

It is with sorrow we are called upon to announce another death in our midst. The victim this time is Mrs. Yeo, daughter of Mrs. Johnston, who passed away less than a week before, and sister of our merchant Mr. Johnston, at whose residence she died, also of Mrs. Robt. Cairns of this vicinity. Mrs. Yeo arrived here in early winter in the hope that the change of climate would restore her health, her trouble being tuberculosis in the throat, and for a time seemed to improve very rapidly, but again took worse and kept gradually getting weaker, until her death. Her mother's father and her death, which we mentioned last week, no doubt shortened the few days that were left her. Mr. Yeo reached here shortly after his wife came, and with his little boy, about 7 years old, who is with him, and a child a few months old, with his grand parents in the east, is left to mourn the loss of a loving wife and mother. She was buried here for another, the funeral taking place on Thursday, Jan. 31st. Mrs. Milson of Mooseomin, another daughter of Mrs. Johnston, reached here in time to bid her mother and sister farewell before they passed away. The Rev. John Fernie preached the double memorial sermon on Sabbath last, which was well attended considering the very stormy weather. The heartfelt sympathy of the community is extended to our bereaved friends.

The Nor'Wester of Friday says: A crowded carload of settlers, most of whom were bound for the Edmonton district, came in with the Great Northern express yesterday, some of their effects were attached to the out side of the car, there not being enough room inside. The officials of the immigration hall looked after the comforts of the party.

Free Press: Mr. Geo. Ham editor of the Nor'Wester was summoned to Montreal yesterday by the sad intelligence of the death of his elder son. Mr. Ham was not aware of his son's serious condition until Saturday, the news having been kept from him on account of his own illness. The deceased was taken to Victoria hospital last Wednesday suffering from appendicitis and underwent an operation which proved fatal, death ensuing yesterday morning. He was 14 years of age and was a native of Winnipeg. Mr. Ham will have much sympathy.

He is threatened with a Smead Dowd controversy. The correspondent of the Calgary Herald, writing from the Territorial capital, says: "Someone has been pitching into the Smead Dowd system in operation, or rather apparently in operation, at our school. The man evidently knows what he is talking about. It is a notorious fact, as many of us who have seen daily testify, that the sanitary arrangements of the school are in a scandalous state of inefficiency. It is an unsavory subject, but let it be well stirred up, even though some account to its noxious fumes."

A London telegram says: Senator J. E. Thompson, the president of the Atlantic and Lake Superior railway, is meeting to the press to night a reply to the attacks upon his line. Mr. Thompson denies that the line is being built as a rival to the Canadian Pacific. He claims the road will develop new territory and most benefit the Great North and the Canadian Pacific by an exchange of traffic. He further denies that the Montreal and Sorel line of railway is included in the new scheme. Another deal is the emphatic statement that there has not been any negotiation for the purchase of any interest at 4 per cent, during the twenty years currency of the proposed \$500,000 bonds to be paid by the Canadian Government without consulting the Company's officials. The whole amount, he says is provided out of the federal and provincial subsidies to the companies forming the through line, the subsidies being a free and unconditional gift to the Atlantic and Lake Superior company from the line to which they were originally granted.

**FROM FORT VERMILION.**  
Henry Lawrence, and his nephew Isaac Lawrence of Fort Vermilion on lower Peace River and J. Gibson of the forks of Smoky and Peace rivers, arrived on Thursday, Feb. 7th, by way of Lesser Slave Lake and the Landing. The Messrs. Lawrence left Vermilion on December 27th. They came by horse and sleigh from Vermilion to the forks of Smoky river drawing their bedding and provisions on hand toboggans. After resting for some time at Shaftsbury they were joined by Mr. Gibson, who had a train of dogs, with which they travelled to the Landing. They came in from the Landing with S. Bailey's team. The trip was hard and long but all arrived in good health. Mr. Henry Lawrence enjoys the distinction of being the principal farmer in the furthest north farming settlement on the continent, latitude 58 degrees and 29 minutes north some 350 miles further north than Edmonton. There are places much further north where some farming is carried on, but only as an assistance to other means of livelihood. At Vermilion however Messrs E. J. Lawrence and Henry Lawrence and several retired Hudson's Bay servants who have settled there depend entirely upon their cattle and stock for their living. There is a small steam grist and saw mill run by Mr. E. J. Lawrence, besides his farm. Mr. Henry Lawrence farms about 100 acres and keeps horses, cows, pigs and poultry and raises wheat, oats, barley, potatoes and roots generally with good success. He has been farming for ten years past, having gone to Vermilion in 1884, and this is his first trip out. The past season was dry, but crops were good where the land was properly cultivated. Where it was not they were not good. The spring was late and the winter was also late in coming, there having been no very cold weather before Mr. Lawrence started and very little snow. Cattle were still running out, and in good condition. F. D. Wilson at one time in charge of the H. B. store at Edmonton, is now the H. B. officer in charge at Vermilion. Mr. Lawrence will probably remain at Edmonton until spring opens, when he will return north.

**Prince Albert Times:** The recent outbreak of small pox in the vicinity of Guelph has been traced to the influx of money. In such a case to be forewarned is to be forearmed, therefore to prevent the spread of disease it would be well for the town for Prince Albert to decline having anything to do with money for some time to come. Long ago money was declared to be the root of all evil, and now it is to be also the root of disease it is better to discard it altogether. Any person therefore having money in their possession and feeling any way timid over the matter, can get rid of it by depositing the same with us until the panic blows over. We are not all afraid of money.
